What do you do when in Melbourne with a free night?

Hang out with one of Melbourne's best automotive photographers at the auctions of course.

We have featured a number of Shannons auction updates on our news feed over the last year but we have never had the opportunity to get along to check it out.

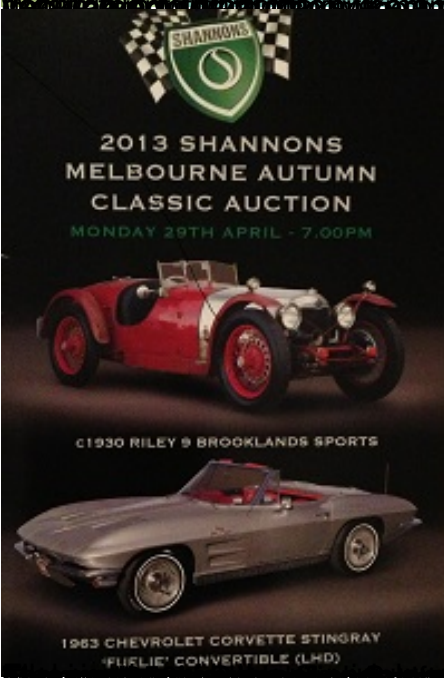

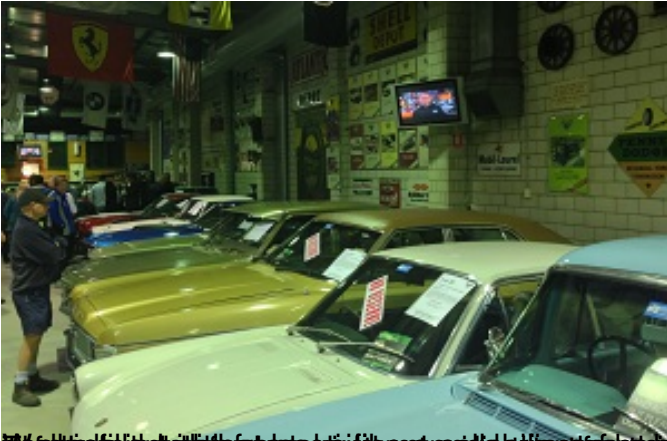

So when the opportunity presented we jumped at the chance to spend a night with hundreds of other motoring enthusiasts in Cheltenham in Melbourne's south.

Our good friend and photographer Joel Strickland picked us up in the city and he just happened to be driving a new SS Sportswagon courtesy of Holden. A quick ride out while sharing thoughts on the SS and we arrived in a car lover's paradise.

Finding a park was the first challenge, the scarcity of parks was the first indication of the popularity of these auctions.
