Episode Twenty Three / Holden Fuel Test

In this episode the boys and a few guests spend a day in a Cruze.

Holden say that their Cruze 1.4 is capable of doing 1000km on a single tank of fuel. Why take their word for it, we wanted to find out if it could.

Holden Cruze

The Australian designed and built Cruze Hatch. With a new sporty and dynamic design the hatch offers added versatility and practicality. The almost coupe like appearance with a low sweeping roofline is eye-catching, youthful yet sophisticated, and will stand out amongst other conventional hatchbacks.
