Episode Thirty Six / Opel Insignia

In this episode Jason test drives an Opel Insignia and has a look at the Opel range. Shortly after filming this episode Opel Australia announced its withdrawal from Australia.

We had some fun driving the Insignia, especially around the abandoned warehouse. We couldn't let the footage go to waste so here it is for you to enjoy. Besides these cars are still available in the international market place so the review may be of benefit for our international fans.

Opel Insignia

The Opel Insignia combines outstanding design with cutting edge technology to deliver real control, combined with performance. Its bold and muscular 4-door coupe styling and signature lighting is unmistakable, as is the aura of quality when you step inside.
